

Wave 1 Changes between V6.0 & V6.1

This document highlights the changes between Wave 1 data V6.0 (previous public release data set) compared to V6.1.

Panel weights and post-stratified weights

There were some changes to the weights variables, *w1_pweight* in the *innderived* data file and the *w1_wgt* in the *hhderived* data file. Changes in these variables were caused by:

1. Missing panel weights for some babies born to CSM mothers after Wave 1 (2008).
2. One respondent with a missing weight.
